

MUSALA SOFT COMPANY OVERVIEW

Company

Musala Soft is a leading Bulgarian software engineering services company, specialized in nearshoring, delivery of complex and large-scale software projects, IT consulting and solution implementation.

Musala Soft has developed methodology to execute projects under complicated setups including geographical dispersion, remote access, organizational obstructions and tight deadlines. Our commitment to understand clients' needs and deliver high quality and innovation, has attracted customers as Allianz, DSK Bank, EnBW, HP, IBM Corporation, Manpower, Mobilkom Austria Group, OMV, Piraeus Bank, SAP, Siemens, VMware and others.

Mission

Musala Soft mission is to understand clients' needs, provide effectively high quality solutions that meet client expectations and be a long-term reliable partner of satisfied customers.

Team

Musala Soft has a proven reputation of supplier with strong delivering capabilities for mission and business critical projects, combined with strong HR sourcing abilities, talent management practices and recognition as an IT community developer in Bulgaria.

Musala Soft acquires resources from the best universities. Members of our staff have medals from international competitions in Informatics, knowledge covering a broad range of technology projects, and multiple years of experience in the software development industry.

Business Process

At the heart of any successful project lies an effective methodology, reflected in a well-established software development process. This is especially true for outsourced projects, where time differences, physical distance, and other potential obstacles must be addressed. All of the business activities at Musala Soft focus on outsourced projects, and as a result we are committed to clear communication with our clients. We utilize company-wide business processes to ensure that our custom outsourcing service projects move efficiently through to completion. These processes include gathering and documenting requirements early in the project, and communicating regularly with clients to move the project forward.
